

Welcome to the European Elemental Designs retailer!

This is our official pricelist. The pricing does not include shipping and in all countries except Norway it does not include VAT.

Currently the European versions are limited to the A7/P7 (1,3kW) versions due to power compatibility issues. We are working on this in order to be able to offer the lower priced Elemental Designs products in Europe as well.

We are currently working on shipping alternatives for Europe. Please contact us for shipping quote. Please allow some time for this. For now, pricing is to be understood as «delivered from Rakkestad, Norway».

We have very few items in stock. Typical production and shipping time is around 6-8 weeks from payment. Stock items will be sent when payment is received.

Please contact us for further information. Additional info can also be found at the official Elemental Designs website.

URL = <http://www.edesignaudio.com>

The pricing has been checked, but typing errors might occur. Also, factors out of our hands might affect pricing. In such situations, we can not be held responsible for delivering products at the given price. In such situations we will inform the customer as soon as possible.

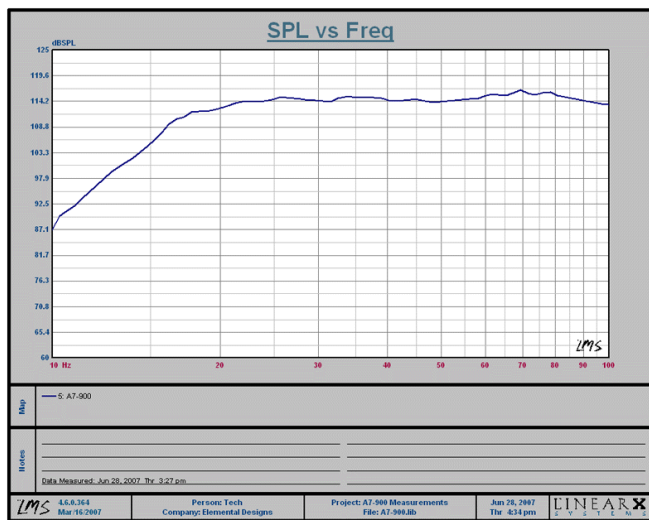

Please note that the products we currently offer are the ones listed in this document. We can also help design custom versions and calculate pricing.

Best Regards
Joern Rune Kviserud
Manager, Midgard Audio

| Shipping weight | 124kg |

Side firing version

The side firing version has the driver mounted on the side. It can be crossed over at higher frequencies, and by rotating it the subwoofer can be placed behind a perforated projection screen or acoustically transparent wall without conflict with the air flow from the reflex port.
